Copy of the CD and Photographs prepared during hearing are enclosed for reference as **Annexure-“C”**

Copy of the executive summary of the EIA for “**Development of 6 lane Access Controlled Greenfield Highway of Shamli – Ambala Section from Ch. 0+000 to Ch. 120+970 (Total length = 120.970 km) in the states of Uttar Pradesh, Haryana and Punjab under Bharatmala Pariyojana Phase II (Lot-9/Package-1)**” were distributed to the audience present in the hearing.

1939037/2022/Estt.Br

Sh. Shailender Arora, Regional Officer, HSPCB, Karnal welcomed ADC, Karnal & other officers of the District Administration and public present in the hearing. He briefs about the project and necessity of the public hearing being held under provision of EIA Notification of 2006, amended to date. Further, permission to inaugurate the process of public hearing was granted by the Chairman Sh. Yogesh Kumar, ADC, Karnal.

Thereafter Sh. Shailender Arora, Regional Officer, HSPCB, Karnal requested to Environment Consultant to give the presentation of the project in detail and remedies taken by the project proponent to control the environmental impacts, which may arise after development of the proposed project.

Ms. Sarla (Environment Consultant) welcomed the officials and began the presentation with their due permission. She explained about the **development of 6 lane Access Controlled Greenfield Highway of Shamli – Ambala Section from Ch. 0+000 to Ch. 120+970 at BDPO office Indri, Karnal.** The environment consultant also briefed in details about the project:

- Project Location
- Environmental settings of 10km radius study area
- Description of the project
- Baseline monitoring results of air, water, noise and soil
- Air and noise quality control
- Greenbelt/ plantation development
- CSR/ESC activities will be carried out

Thereafter, **Sh. Shailender Arora**, Regional Officer, HSPCB, Karnal requested the public to raise their suggestions, objections, views, queries and doubts about any problem which may rise during **construction.**

S. No.	Name & address of the Person	Issues Raised in Brief	Name of Replier	Comments on Remedial Measures
1.	Surender Village- Hansoo Majra	What will be the basis of compensation?	Ankush Mehta Manager Technical, NHAI	Compensation shall be provided as per RFCTLARR Act-2013 and amended thereof. Revenue related matter any be taken with concerned Revenue Authorities.
2.	Rohtash Village- Hansoo Majra	Proposed highway divides the land in two parts and pipelines are underground for irrigation. Due to proposed Highway, How irrigation is possible in both sides of the land of one owner ?	Ankush Mehta Manager Technical, NHAI	All existing roads are provided underpass/Box type Culverts and there is also provision for utility ducts HP Culverts at approx. 500m interval.
3.	Rajendra Village- Chandraon	Land exists both side of Yamuna River. How will they get access?	Ankush Mehta Manager Technical, NHAI/ Environment	All existing roads are provided underpass/Box type Culverts and there is also provision for utility ducts HP Culverts at approx. 500m interval.

			Consultant	
4.	Pawan Village-Kalri Jangir	The land lies nearby canal and flood plain area. Is there any underpass for drainage?	Ankush Mehta Manager Technical, NHAI	All existing roads/canals are provided bridges, underpass/Box type Culverts and there is also provision for utility ducts HP Culverts at approx. 500m interval. Rain water harvesting system is provided to solve the rain water logging problem. Adequate number of bridges and culverts are proposed to maintain the natural flow of storm water.
5.	Shailender Arora HSPCB, Karnal	What are the solutions for dust control, Vehicular pollution, noise pollution, tree cutting & Plantation, no. of employment generated, hot mix plant, labour sanitation?	Environment Consultant	<ul style="list-style-type: none"> • Covered trucks will be provided for material transfer, regular sprinkling of water for dust suppression. • Vehicle will be provided with upgraded engine having low emission factor and predicted concentration of CO due to vehicles are under permissible limits of CPCB NAAQS, 2009. • Minimum number of trees are felled during construction and Avenue plantation on both side of the project highway and median plantation shall be undertaken as per IRC SP-21:2009 and green highway policy. • Hot Mix plants to be set up at least 500 m away from surface water body or nearby habitation. • Construction camp will be organized in a planned manner. Proper drainage system, septic tanks with soak pits will be provided at the camp sites and wayside amenity
6.	Dharmveer Village- HansooMajra	Land divided in two parts. How they access two parts? what is the solution of water drainage problem? What will be the basis of compensation? What is compensation of wood trees, flowering plants & fruits plants?	Ankush Mehta Manager Technical, NHAI	All existing roads are provided underpass/Box type Culverts and there is also provision for utility ducts HP Culverts at approx. 500m interval. Rain water harvesting system be provided to solve the rain water logging problem. Adequate number of bridges and culverts are proposed to maintain the natural flow of storm water. Revenue related matter any be taken with concerned Revenue Authorities.

				Tree evaluation will be done by Forest department and accordingly compensation shall be made as per applicable Rule & Regulations.
7.	Surender Kumar Village- HansooMajra	Land divided into two unequal parts. They want to do construction in smaller part.	Ankush Mehta Manager Technical, NHAI	It is suggested to get the necessary approvals from the concern authority for any construction activity adjacent to the proposed alignment.
8.	Natel Kumar Village-Kalri Jangir	During flood, problem of water drainage exists. Did sufferers will also get compensation of underground pipeline for irrigation? Land divide into two parts. At what distance they will get the access to reach other side of land?	Ankush Mehta Manager Technical, NHAI	Rain water harvesting system is provided to solve the rain water logging problem. Adequate number of bridges and culverts are proposed to maintain the natural flow of storm water. Revenue related matter any be taken with concerned Revenue Authorities. All existing roads/canals are provided bridges, underpass/Box type Culverts and there is also provision for utility ducts HP Culverts at approx. 500m interval.

As there were no further questions, Sh. Shailender Arora, Regional Officer, HSPCB, Karnal closed the ceremony of public hearing with the permission of Sh. Yogesh Kumar ADC, Karnal, Haryana.

During Public hearing, it was observed that participants from nearby villages were satisfied with the answers given by the representatives of the project proponent regarding questions raised by the participants.

The public hearing was conducted with the vote of thanks to the chair.

Copy of the CD and Photographs prepared during hearing are enclosed for reference as **Annexure-"C"**

Copy of the executive summary of the EIA for "Development of 6 lane Access Controlled Greenfield Highway of Shamli - Ambala Section from Ch. 0+000 to Ch. 120+970 (Total length = 120.970 km) in the states of Uttar Pradesh, Haryana and Punjab under Bharatmala Pariyojana Phase II (Lot-9/Package-1)" were distributed to the audience present in the hearing.

1939037/2022/Estt.Br

Sh. Shailender Arora, Regional Officer, HSPCB, Karnal welcomed ADC, Karnal & other officers of the District Administration and public present in the hearing. He briefs about the project and necessity of the public hearing being held under provision of EIA Notification of 2006, amended to date. Further, permission to inaugurate the process of public hearing was granted by the Chairman Sh. Yogesh Kumar, ADC, Karnal.

Thereafter Sh. Shailender Arora, Regional Officer, HSPCB, Karnal requested to Environment Consultant to give the presentation of the project in detail and remedies taken by the project proponent to control the environmental impacts, which may arise after development of the proposed project.

Ms. Sarla (Environment Consultant) welcomed the officials and began the presentation with their due permission. She explained about the development of 6 lane Access Controlled Greenfield Highway of Shamli – Ambala Section from Ch. 0+000 to Ch. 120+970 at BDPO office Indri, Karnal. The environment consultant also briefed in details about the project:

- Project Location
- Environmental settings of 10km radius study area
- Description of the project
- Baseline monitoring results of air, water, noise and soil
- Air and noise quality control
- Greenbelt/ plantation development
- CSR/ESC activities will be carried out

Thereafter, Sh. Shailender Arora, Regional Officer, HSPCB, Karnal requested the public to raise their suggestions, objections, views, queries and doubts about any problem which may rise during construction.

S. No.	Name & address of the Person	Issues Raised in Brief	Name of Replier	Comments on Remedial Measures
1.	Surender Village- Hansoo Majra	What will be the basis of compensation?	Ankush Mehta Manager Technical, NHAI	Compensation shall be provided as per RFTLARR Act-2013 and amended thereof. Revenue related matter any be taken with concerned Revenue Authorities.
2.	Rohtash Village- Hansoo Majra	Proposed highway divides the land in two parts and pipelines are underground for irrigation. Due to proposed Highway, How irrigation is possible in both sides of the land of one owner ?	Ankush Mehta Manager Technical, NHAI	All existing roads are provided underpass/Box type Culverts and there is also provision for utility ducts HP Culverts at approx. 500m interval.
3.	Rajendra Village- Chandraon	Land exists both side of Yamuna River. How will they get access?	Ankush Mehta Manager Technical, NHAI/ Environment	All existing roads are provided underpass/Box type Culverts and there is also provision for utility ducts HP Culverts at approx. 500m interval.

			Consultant	
4.	Pawan Village-Kalri Jangir	The land lies nearby canal and flood plain area. Is there any underpass for drainage?	Ankush Mehta Manager Technical, NHAI	All existing roads/canals are provided bridges, underpass/Box type Culverts and there is also provision for utility ducts HP Culverts at approx. 500m interval. Rain water harvesting system is provided to solve the rain water logging problem. Adequate number of bridges and culverts are proposed to maintain the natural flow of storm water.
5.	Shailender Arora HSPCB, Karnal	What are the solutions for dust control, Vehicular pollution, noise pollution, tree cutting & Plantation, no. of employment generated, hot mix plant, labour sanitation?	Environment Consultant	<ul style="list-style-type: none"> • Covered trucks will be provided for material transfer, regular sprinkling of water for dust suppression. • Vehicle will be provided with upgraded engine having low emission factor and predicted concentration of CO due to vehicles are under permissible limits of CPCB NAAQS, 2009. • Minimum number of trees are felled during construction and Avenue plantation on both side of the project highway and median plantation shall be undertaken as per IRC SP-21:2009 and green highway policy. • Hot Mix plants to be set up at least 500 m away from surface water body or nearby habitation. • Construction camp will be organized in a planned manner. Proper drainage system, septic tanks with soak pits will be provided at the camp sites and wayside amenity
