## Brief On General Scheme of Collection (Extended Producer Responsibility Plan)

We, Sidwal Refrigeration Industries Pvt. Ltd have empanelled K. J. Recyclers registered with Punjab Pollution Control Board for collection and further processing of our E-waste.

- ✓ As a part of agreement K. J. Recyclers will collect E-waste from PAN India and process the same at their Plant in Jalandhar (Punjab), for this they have reverse logistics arrangement in place with Professional Logistics Pvt. Ltd.
- ✓ K. J. Recyclers our E-waste management partner has obtained all the authorisation related to E-waste recycling from Punjab Pollution Control Board and having all connects related to Air/Water/Hazardous Waste. They have the capacity of 600 MTA.

Keeping in view our sales volume and generation of E-waste we have decided to follow the below mechanism in our organization for collection E-waste:

### Customer Reach:

According to our agreement with K. J. Recyclers if any individual wants to handover their old product they can reach or call our E-waste recycling partner toll Free No. 1800 572 7756 where their representative will explain the caller about the process of E-waste and will guide them about the nearest collection point to drop off their old, obsolete product and in lieu they will further be informed about the incentive that can avail from our organization.

### Our Reach to Customer:

Our E-waste recycler has PAN India Collection ability through their Reverse logistics arrangement with Professional Logistics Pvt. Ltd., so if any customer calls on our e-waste recycler toll free no. 1800 572 7756 and wants to handover their material from their premises then reverse collection will be arranged from their door step.

### Final Processing:

In both the above collection mechanism the collected material will reach our recycler's facility for the final Processing of E-waste at Jalandhar (Punjab).

## Specific Collection Scheme:

### Whether all states are covered?

We will cover all states in India through our collection mechanism by using our Recycler's reverse logistics management.

### Buy Back:

We will in place a mechanism wherein any of the consumers wants to discard their old, obsolete or end of life product to us then we will encourage them by giving an X percentage of incentives or perks and arranging collection from their door step for the convenience of our customers. EOL buy back products will be further channelise to our E-waste Recycler for the final process.

### DRS - Deposit Refund Scheme:

We do not have current plans to introduce DRS scheme to our customer. We will keep Central Pollution Control Board informed once will introduce the same.

### Exchange Offer:

Exchange facility will also be offered to all customers, wherein customer will be encouraged to exchange their old, obsolete and end of like product with the new one and get certain amount of discount. The collected EOL material will be channelised to our E-waste Recycler for the final process. Even after sales, we will regularly offer our customers about the new products into the market and will encourage to exchange their EOL products

### Coupons:

Once the customer has to replace, exchange or give it us under buy back we can offer them a coupon of a specific amount on their next purchase.

Proposed Awareness Program

We will create awareness amongst our customer about the handling of Electrical and Electronic Equipment Waste and channelisation to the approved and authorised E-waste Recyclers according to the E-waste (Management) Rules 2016.

Lack of awareness amongst the people about the ill effect of E-waste handling by the unorganized sector is a major concern in our country. For reducing the adverse effect on our environment and our health we need to initiate sustainable mechanism to create the awareness about the safe disposal of E-waste.

Sidwal Refrigeration Industries Pvt. Ltd. will initiate an awareness program Social Media, workshops, training, user manual, booklet brochures and logs:

1. Social Media:

We also try to provide awareness to all by the means of social media like Facebook, and providing advertisements and posters so that each and every customer would be aware about how to handle the E-waste.

2. Workshops:

We will also conduct region wise awareness program and workshops at specific period of time and invite various stakeholders to attend the same and we spread awareness about the hazardous content contains the electronics goods. We will also educate our stakeholders about benefits of the recycling of electronic goods.

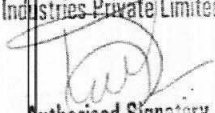

3. Training:

At the time of sales of the electronic goods, the customer are provide training about how to use that electronic goods and at the end of the life of each products, it should be disposed as per E waste management rule and should not be left in open environment.

4. User Guide/Booklet/Brochures:

It will be provided to customers for handling e-waste as collection and recycling arrangements with proper guidelines as per E-waste management rule 2016.
